Our exclusive and authentic Hansgrohe style worlds – inspire you to create a harmonious living space tailored to your individual desires, expressing both style and character. Each and every detail is important and contributes to the overall atmosphere of the room – to a space you can truly call your own.

The Hansgrohe lines are dedicated to the three major styles, each reflecting a different design era. We call these design worlds Elegance, Style and Classic. Design should be timeless, not a matter of fleeting trends. We therefore offer you authentic and well-balanced examples of interior design which invite you to discover the bathroom that is right for you. In this brochure we introduce you to the Classic style world. With the Metris Classic mixer line you can incorporate modern classic design into your bathroom. And with Talis Classic and its pure geometry you can accentuate the simple beauty in this living space.

	Elegance	Style	Classic

Talis			
Focus			

The Hansgrohe Classic style world represents classic beauty. Timeless, harmonious and balanced: a style that conveys a sense of history and tradition. The Classic style is for people who seek comfort in their home by creating a warm and cultured interior design that invokes time-honored values. Design,

art and craft are brought into balance, representing timeless sophistication and subtlety. Hansgrohe Classic reflects modern classic design elements from the turn of the 19th to the 20th century.

Metris Classic showcases modern classic design with its characteristic geometrical shapes. The curve and precision of the classic elements are drawn together in an eye-catching line. This style offers the comfort of familiarity. What counts in modern classic design is the overall harmony of the composition – an orchestration of elegantly and expertly balanced shapes in a minimalist style that requires no extra adornment. Metris Classic offers a wealth of sophisticated, carefully conceived detail in a world of bathroom treasures.

Metris® Classic
Single lever basin mixer

Raindance® Classic Overhead showers. Are you seeking an abundance of Shower Fun with all its luxuries, but in a classic, traditional look? With Raindance Classic, you can enjoy the best of both worlds. Pure elegance combined with retro style elements and crowned by a uniquely shaped shower head. This shower line – with diameters ranging from 180 to 350 mm – blends perfectly into both traditional and modern bathrooms, permitting modern interpretations and fascinating style combinations.

Talis Classic. The distinctive feature of this series is a discrete, slim and cylindrical basic form. The tall, classic geometry is complemented by the subtle, elegant curve at the base – Talis Classic conveys confidence, calmness and energy. The Talis Classic Natural basin mixer is strongly reminiscent of a classic fountain spout. Minimalist, without superfluous curves, it is a modern design classic that defines the style in your bathroom with its pure and unadorned beauty.

Talis® Classic Natural
Single lever basin mixer

EcoSmart. Greater savings – greater enjoyment. Mixers which reduce water consumption by up to 50% compared to conventional models, thereby also reducing energy consumption.

QuickClean. Anti-limescale function. Easy cleaning for a perfect, concentrated jet.

AirPower. Experience the true pleasure of water. Mixing water with air for a soft, voluminous and concentrated jet.

ComfortZone. More comfort through space. The mixer height and angle of projection make washing your hands that much more comfortable.

Shines on the outside... We do everything in our power to develop and produce mixers which you can enjoy in your bathroom for many years to come. This also means that our mixers stand out for their many unique technological and design features which are distinctively Hansgrohe.
